Guitar • Keyboard • Percussion • Band

GATOROLOGY- <noun> A system of methods and principles for quality.

LIGHTWEIGHT CONSTRUCTION

This method of construction is a blend between dense foam and nylon. The interiors are constructed with a dense EPS foam that is shaped to create a "hard" case. Then we cover the foam with high quality 600 denier nylon to make it appear similar to a bag yet have the rigidity of a hard case.

DENIER NYLON

A strong nylon material that is used in the construction of bags. The higher the number, such as 600-denier, the better the quality. 600-denier is highly tear and water resistant.

G-TOUR

G TOUR is GATOR designed flight cases with heavy duty aluminum extrusions and rugged PVC laminated plywood exterior. All hardware is Pen-Elcom with M.O.L. latches.

EVA ETHYLENE-VINYL ACETATE

EVA is a polymer used to absorb physical shock. Gator uses EVA to give extra protection between foam and nylon along with forming tough contoured molded pieces.

PE- HIGH DENSITY POLYETHYLENE

PE is a rugged plastic material which has a high resistance to impact. PE provides good performance in low temperatures where other plastics would crack and is highly resistant to both chemicals and moisture. Gator uses PE for the products that need to take the hardest beating on the road.

ABS- ACRYLONITRILE BUTADINE STYRENE

ABS plastic has good impact resistance and impact absorption. It is easily formed to make all shapes and sizes. Gator uses ABS for the cases that are designed to offer strong hard case protection but do not need the extreme durability of PE.

EPS FOAM - EXPANDED POLYSTYRENE

EPS is a thermal plastic material. It is formed to make a dense foam that is ideal for creating form fit protection for the product. Gator uses EPS to create case interiors and structures.

ROTO-MOLD

The rotational molding process is a high temperature, low pressure plastic forming process that uses heat and biaxial rotation (i.e. rotation on two axes) to produce hollow, one piece parts. Gator utilizes roto-molding for large format products that required form fitting capabilities.

M.O.L.

Gator terminology to define the biggest and best latch out there. The "Mother Of-A Latch"

GL-SG	6 lbs	40.5"

**Features:**

- Perfect cross between hard case & gig bag
- Exterior is covered with 600-Denier nylon
- Internally constructed of dense EPS foam
- Interior is covered in soft plush with foam support for the neck
- Two accessory pockets
- Parachute nylon web carrying handle
- Comfortable removable shoulder strap
- #10 zippers

For detailed measurements see www.gatorcases.com

VIPER GIG BAG

Features:

- Premium High End Electric Guitar Gig Bag- Case
- The protection of a case with the versatility of a bag
- The choice of the professional musician
- Dual textured weather resistant exterior with military grade polyethylene reinforced interior defense shield
- Universal ergo-fit design for most Strat and Les Paul style guitars
- Ultra foam quilted instrument cushioning nest
- ANS (adjustable neck support) system
- Ergo-fit air cushioned padded shoulder harness straps
- Rear breathable vented cushion pads
- Adjustable sternum strap
- Reinforced firm grip handle
- Luggage grade #10 zipper system
- Upper and lower accessory storage pocket compartments

Laptop Version Features:

- Built-in laptop pocketed compartment
- Business resource pocket
- Multiple gear pockets for pedals, recording and midi interfaces, headphones, tuners and your general accessories
- Sheet music size pockets
- Hideaway bungee water proof weather cover to ride out the heaviest of storms

Find your perfect case with CaseMaker at www.xlspec.com

ELITE AIR SERIES

The revolutionary Elite Air Series design features an oversized case with tailor-made contours and shaped foam strips to securely Cushion each drum. The drum rests in the middle, away from side walls, which provides a snug fit and eliminates the need for foam. The unique shape is designed to accommodate most suspended mounting brackets without "upsizing" and comes with a limited, lifetime warranty against cracking.

Snare

Tom

COMBINATION

The Elite Air Combination Tom case blends Elite's optimum protection with the convenience of one case. The contoured divider allows smaller toms to securely sit atop larger toms and is available for 10" & 12" and 12" & 13" tom combinations.

Elite Air Series' unique design allows case to ride securely against handle

Adjustable straps with quick-snap clips for easy attachment

Optional Deluxe Handle Kit collapses for easy storage

Wheel kits come standard on all Elite Air Series bass drums

Contoured Divider

Protektor Elite Air Series Cases are available in traditional and custom cut heights in the following diameters:

Model	Case Diameters Available
TOM CASE	8" - 10" - 12" - 13" - 14" - 15" - 16" - 18"
BASS DRUM CASE	18" - 20" - 22" - 24"
SNARE CASE	10" - 12" - 13" - 14"

All Height of Cases Available with a Custom Cut!

SINGLE & COMBO

Recognized as the industry standard rotationally molded drum cases, Protechtor Cases' Classic Series provides strength, durability and simplicity for almost any drum size. The rotational molding process gives added strength and durability to case corners and provides water resistance that non-roto molded cases can't match. Custom depths and colors are available and come with a limited, lifetime warranty against cracking.

Combo

"The high quality of the cases and the innovative designs put them in a category by themselves. Protechtor Cases is my only choice." Carl Allen, Internationally Acclaimed Jazz Artist

All Height of Cases Available with a Custom Cut!

Classic Ebony 9X10 Tom Case

MULTI-SNARE / TOM

The square shape allows snare throws and gates to fit into corners while providing a snug fit and protection for any combination of snares and/or mounted toms up to a cumulative depth of 29". Includes two (2) dividers to accommodate multiple drum diameters.

Rounded Corner Pockets

The Multi-Tom case features rounded pockets to make room for floor tom leg mounts. The 34" maximum depth allows for any combination of floor toms (up to 16" diameter), mounted toms and/or snares.

Dividers included

Model	Description	Diameter / Length	Depth	Width

MARCHING SERIES

Elite Marching Snare Case

The Elite Marching Snare Case incorporates the Elite Air Series design to provide ultimate protection without the need for foam. Fold out handles and oversized wheels come standard.

Logging as many touring miles as any musical equipment, marching percussion drums, carriers and accessories must be durable enough to withstand the rigors of cross continental travel. Protecstor Cases are backed by a limited, lifetime warranty and available for all marching percussion equipment.

Model	Description
Bass Drum Cases	Bass Drum Cases Available for 16" to 32" Base Drums

the Claw

As used by the Concord Blue Devils, DCI Tour 2008

This revolutionary spring-loaded, quick-release system provides quick bass drum mallet placement for 14 and 16-inch deep marching bass drums. The attractive and strong black anodized finish creates a slick, yet subtle appearance with a strong aluminum edge for optimal protection against rim clicks.

Spring-loaded, quick-release system

Patent #7,164,074

ACCESSORY MOUNT

The Accessory Mounting Bracket securely mounts to the rim of any free floating drum and has been redesigned to provide a more compact and stable attachment for percussion accessories without muffling shell resonance. The universal F-clamp design provides multiple rod applications for hi-hats, cymbals, cowbells, jam blocks and ribbon crushers. Each rod comes with appropriate mounts, felts and a memory lock to make set-ups quick, easy and consistent with maximum stability.

ALUMINUM VEST

Renown as the quality and innovative leader in marching carriers, accessories and rotationally molded cases, XL Specialty Percussion's XL Lite Series is a full line of marching percussion equipment. XL Lite Series equipment and ProtecTorch Cases are used by some of today's most competitive and formidable marching percussion units.

The Aluminum Vest series has defined marching vest carriers through its durable, light weight and custom fit design. The Aluminum Vest Series offers years of trouble free solid performance in a sleek and simple design.

Model	Description
GP-XLC-SD2	Omni Vest Snare Carrier
GP-XLC-QS2	Aluminum Vest Quad/Sext Carrier
GP-XLC-BD2	Aluminum Vest BD Carrier

*Durable, light weight
& custom fit design*

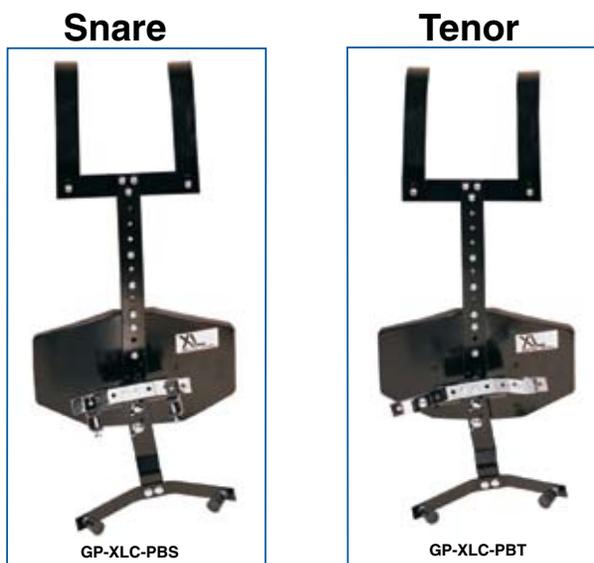

T-BAR

The XL Lite T-Bar carrier is the original aluminum marching carrier and continues to be the standard for many domestic and international marching groups. The lightweight design provides flexibility and support with utmost comfort and security.

Model	Description
GP-XLC-SD3	Lite Snare Carrier
GP-XLC-QD3	Lite Quad/Quint Carrier
GP-XLC-BD3	Lite Bass Drum Carrier

PIPE BAND

XL offers two carriers for the discerning pipe band drummer. The XLC-PBS snare carrier features tilt and angle adjustments with an "F" attachment for high-tension snares and an optional "L" attachment for standard drums. The XLC-PBT tenor carrier uses an extended angle bar to fit tenor drums up to 18".

Model	Description
GP-XLC-PBS	Pipe Band Snare Carrier
GP-XLC-PBT	Pipe Band Tenor Carrier

DELUXE BASS DRUM CARRIER

The Deluxe Bass Drum Carrier offers easy and fully adjustable positioning (in, out, up and down) for ideal player comfort and technique. The unique swivel hook and adjustable support rods allow the drum to be positioned for optimal playing comfort. Available in T-bar and Aluminum Vest styles for every bass drum size.

CONCERT BASS DRUM STANDS

The Folding Bass Drum Stand and Suspended Bass Drum Stand (with optional footrest) are made of aluminum and steel frames, respectively, for easy transportation and extremely durable use in the concert hall, classroom or marching field. The black powder coating creates a beautiful and long lasting finish. The BST is easy to set up and transport with quick release folding adjustment arms and rubber stand covers to protect the drum's finish. The XLS-SUSBST can be transported easily and quietly with its durable and oversized casters. The octagon-shaped frame makes centering the drum quick and easy during installation.
