New cases feature distinctive designs to complement the style of these unique guitars

**SKB-58
Contoured Case for
'Flying V'® Style Guitars**

The SKB-58 Flying V case is designed to fit 1958-present Flying V type guitars from various manufacturers including Gibson®, Epiphone®, Jackson®, Dean®, Ibanez®, etc. Unlike a conventional, rectangular shaped guitar case, the new SKB-58 Flying V case employs a distinctive design that mirrors the actual shape of these unique instruments.

**THESE CASES
SHARE THESE
FEATURES :**

Both cases feature plush lining to cover the molded EPS foam interior that cradles the guitar and provides neck support. The cases also have a convenient accessory compartment for carrying extra strings, picks or guitar cables. The exterior is constructed from a nearly indestructible molded ABS polymer that has been engineered to provide the ultimate protection during transportation of these delicate instruments while on the road.

As with all other SKB Deluxe Guitar cases, these cases include **TSA recognized and accepted/patented SKB trigger locking latch** that enables the user to safely lock the case and still have it inspected by airline security personnel. SKB is the only case manufacturer to include TSA approved locks allowing TSA screeners to unlock cases for security checks. Additional features include a nearly indestructible injection molded rubber over-molded cushioned carrying handle; injection molded feet and bumper protected valance; and like all SKB cases, the new SKB-58 Flying V and SKB-63 Firebird/Explorer cases are covered by SKB's acclaimed Million Mile Guaranty™ (Lifetime Warranty)

**SKB-63
Contoured Case for
Firebird® / Explorer®**

The SKB-63 Firebird/Explorer case is designed to fit "pointy-style" guitars, such as Firebirds (including models with "banjo" style tuners), Explorers, Jackson Kelly™, and Jackson Warrior™ models, etc.

Rolling ATA Transport

SKB-26RW ATA Double Electric Guitar Transport with Wheels

Here's the case every travelling guitar player has been waiting for. This new double guitar case is rotationally molded of impenetrable, heavy-duty Polyethylene, providing maximum impact resistance. The interior includes convoluted foam in the lid and the base, designed to accommodate two guitars in gig bags. A gasket seal and pressure equalization valve comply with Military Standards, making the case watertight and dust proof. Fiberglass reinforced nylon trigger release latches that include TSA recognized and accepted locks and a cushioned rubber over-molded carrying handle – The perfect solution when traveling with precious guitars.

Interior Length 44.375 in
Interior Width 17.625 in
Interior Depth 8 in
Weight 26.5 lbs.
Million Mile Guaranty

WHEELS

SKB-44RW ATA Electric Bass Safe with Wheels

This revolutionary design has been steadily gaining popularity with travelling bass players. It is designed to comfortably hold a bass, in a gig bag, thus providing the instrument with a hard-shell protective case and the traveller with an ergonomically perfect transport system - Quiet-glide skate wheels, Molded in "big grip" handle and perfectly positioned lift handles. The roto-molded shell is virtually indestructible.

Accessory Compartment
Million Mile Guaranty

\$1500 Product Protection

The amazing SKB-18RW rotationally molded guitar case comes with its own unique form of protection. Not only does this case carry the SKB Million Mile Warranty, covering the case for life, but should your guitar be damaged during airline transport, while riding in the SKB-18RW, SKB will cover the damage up to \$1500. See website for details.

Newly designed injection molded handle combines unequalled lift strength with complete ergonomic comfort. Rubber overmolding provides the sure grip feel. Extra length and correct mount position make for a perfectly balanced carry.
